6. Expertise

Gain access to our dedicated team of product and topic experts

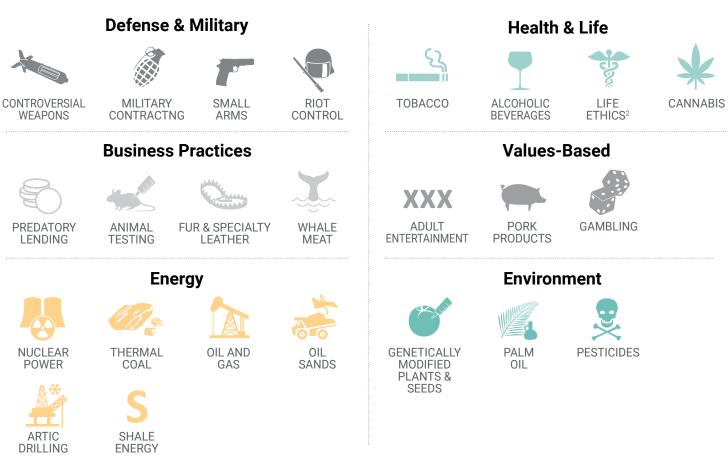

Sustainalytics' Product Involvement enables investors to identify companies involved in a range of product areas.

Whether you are managing assets according to faith or values-based criteria, adhering to legislative requirements, or mitigating financial risks, our Product Involvement research can help you achieve your investment mandates. This research includes details on how a company is involved in one or more areas as well as the degree of involvement, generally using revenue as a proxy. Relevant corporate actions are also tracked in order to capture changes in involvement that might arise through mergers and acquisitions or spin-offs.
